

## CCSP Books

**CCSP?** (Cisco Certified Security Professional) certification is designed for IT professionals responsible for delivering self-defending networks that are integrated, collaborative, and adaptive. A CCSP validates that a network professional can secure and manage network infrastructures to protect productivity and reduce costs. The content emphasizes topics such as perimeter security, virtual private networks, intrusion prevention, as well as how to combine these technologies in a single, integrated network security solution. [Learn more about CCSP certification](#) from Cisco Systems®.

### Prerequisites

CCNA Security

### Exams

Required exams:

642-504 SNRS (Securing Networks with Cisco Routers and Switches)

642-524 SNAF (Securing Networks with ASA Foundation)

642-533 IPS (Implementing Cisco Intrusion Prevention Systems)

Elective Exams: 642-591 CANAC (Implementing Cisco NAC Appliance), 642-545 MARS (Implementing Cisco Security Monitoring, Analysis and Response System), OR 642-515 SNA (Securing Networks with ASA Advanced)
