

CiscoPress - Cisco Firewall Video Mentor 2009(Torrent)

Cisco Firewall Video Mentor is a unique video product that provides you with more than five hours of personal visual instruction from best-selling author and lead network engineer David Hucaby. In the 16 videos presented on the DVD, David walks you through common Cisco® firewall configuration and troubleshooting tasks. Designed to develop and enhance hands-on skills, each 10?30 minute video guides you through essential configuration tasks on the Cisco ASA and FWSM platforms and shows you how to verify that firewalls are working correctly.

Lab Layout:]

Each video lab presents objectives, dynamic lab topology diagrams, command syntax overviews, and video captures of command-line input and GUI configuration. All of this is coupled with thorough audio instruction by an industry expert making learning easy and engaging.

Network Animation:

Animated network diagrams show you lab setup, device addressing, and how traffic flows through the network.

Command-Line Interface (CLI) Video:

Video screencasts of ASA and FWSM CLI and the ASDM GUI demonstrate command entry, configuration techniques, and device response.

This video product is part of the Cisco Press® Video Mentor Series. The video products in this series present expert training from industry-leading instructors and technologists. This dynamic learning environment combines animations, screencasts, and audio instruction to help users bridge the gap between conceptual knowledge and hands on application.

- Lap 01: Initial Configuration
- Lap 02: Configuring Interfaces
- Lap 03: Setting Up Routing
- Lap 04: Firewall Admin over the Network
- Lap 05: Using Multi security Contexts
- Lap 06: Using Failover for High Availabitly
- Lap 07: Failover in Action
- Lap 08: Setting Up Address Translation and Connection Limits
- Lap 09: Setting Up Firewall Rules
- Lap 10: Setting Up a DMZ
- Lap 11: Setting Up Logging
- Lap 12: Using MPF to Control Layer 3/4 Connections
- Lap 13: Using MPF to Perform QoS Queuing and Policing
- Lap 14: Using MPF to Tune Application Inspection Engines
- Lap 15: TestingSecurityPolicies with Packet Tracer
- Lap 16 Capturing Traffic
