Cisco Refreshes Lab Portion of its Popular CCIE Voice Exam

 12 Mar 2009,to meet the needs of today's expert-level voice services professionals, Cisco has refreshed the lab portion of its popular CCIE Voice certification. The revised CCIE Voice lab exam will be live and available beginning July 16, 2008. The revised Cisco CCIE Voice Lab Exam addresses critical skills that voice professionals must posses including the ability to define integrated network services and mitigate future performance problems. For more information about the new Cisco CCIE Voice Lab Exam including lab blue prints and recommended reading, visit the Cisco Learning Network at www.cisco.com/go/learnnetspace.
