Boson Cisco CCIE Exam Lab Preparation

 These products are based on Cisco's published objectives for the CCIE certification. Full objectives for all of CCIE's certification requirements can be found at Cisco's web site.
The Cisco Certified Internetworking Expert (CCIE) is one of the most respected high-level certifications. The exam certifies that the successful candidate has the skills and experience necessary to handle the most difficult networking tasks. Candidates choose from one of the following tracks:

* Routing and Switching
* Security
* Service Provider
* Storage Networking
* Voice
Certification is a two-step process. The first step is to pass a rigorous written pre-qualification exam. Step two is a hands-on lab.
