

ROUTE - Implementing Cisco IP Routing Course Administration Guide Version 1.0

Cisco has updated its Cisco CCNP® certification for network engineers through a comprehensive process involving customers and partners from around the globe. The revision focuses on the competencies that are needed to plan, implement, and troubleshoot the routed and switched networks of today and is designed to be more predictive of job readiness. CCNP offers a career development path for Cisco CCNA® certified network engineers and a solid foundation for those who are interested in Cisco CCIE®.

Cisco has redesigned the CCNP courses and exams to reflect the evolving job tasks of global network professionals.

ROUTE v1.0 ? Implementing Cisco IP Routing ? is a five-day instructor-led course in which network professionals learn to plan, configure, and verify the implementation of complex enterprise LAN and WAN routing solutions, using a range of routing protocols.

ROUTE v1.0 also covers configuration of secure routing solutions to support branch offices and mobile workers. The course includes more than seven hours of e-learning lessons and demos that students can absorb at their own pace.
