

CiscoPress - Securing Your Business with Cisco ASA and PIX Firewalls

Securing Your Business with Cisco ASA and PIX Firewalls is an extension of the work to simplify security deployment. This easy-to-use guide helps you craft and deploy a defense-in-depth solution featuring the newly released Cisco® ASA and PIX® version 7 as well as Cisco Security Agent host intrusion prevention software. The book simplifies configuration and management of these powerful security devices by discussing how to use Cisco Adaptive Security Device Manager (ASDM), which provides security management and monitoring services through an intuitive GUI with integrated online help and intelligent wizards to simplify setup and ongoing management. In addition, informative, real-time, and historical reports provide critical insight into usage trends, performance baselines, and security events. Complete with real-world security design and implementation advice, this book contains everything you need to know to deploy the latest security technology in your network.
