

?Torrent?Cisco Network Troubleshooting Video Mentor DVD

Network Troubleshooting Video Mentor is a unique video product that provides you with more than seven hours of personal visual instruction from best-selling author and senior instructor Kevin Wallace. In the 12 videos presented in this product, Kevin shows you common troubleshooting tasks on a wide variety of topics, including spanning tree, router redundancy, OSPF, EIGRP, route redistribution, BGP, IPv6, IOS security, DHCP, NAT, and VoIP. Designed to develop and enhance hands-on skills, each video guides you through some of the most common troubleshooting tasks on Cisco routers and switches and demonstrates how to verify that your network is working correctly.
