

## Internetwork Expert - CCIE Routing & Switching Version 4.0

Internetwork Expert's CCIE Routing & Switching Lab Workbook (IEWB-RS) is the most comprehensive self-paced resource available for the CCIE Routing & Switching Lab exam on the market today. IEWB-RS is a self-paced product that is a highly integral part of Internetwork Expert's End-to-End CCIE Program. IEWB-RS is designed to be used as a supplement to other self-paced and instructor-led training materials in preparation for Cisco Systems' CCIE Routing & Switching Lab Exam. IEWB-RS consists of over 200 individual technology labs and 20 full scale lab scenarios designed from the ground up based on Cisco Systems' newest specification for the CCIE Routing & Switching Lab Exam. The full scale labs contained in IEWB-RS are designed to simulate the actual CCIE Routing & Switching Lab Exam and at the same time illustrate the principles behind the technologies which it covers. **IEWB-RS At A Glance**

- \* The IEWB-RS is covered by our exclusive Investment Protection Program
- \* Over 1000 pages of content covering every major internetworking topic
- \* Over 200 individual Technology Labs focusing on the more complicated and/or misunderstood topics
- \* 40 full-color laminated diagrams illustrating a different logical topology for each scenario - Internetwork Expert Exclusive
- \* Each workbook ships with a printed version of our 1300+ page solutions guide - Internetwork Expert Exclusive
- \* Each full scale lab scenario is divided into technology sections totaling 100 points just like the actual CCIE lab exam
- \* All labs written from the ground up based on Cisco's new CCIE lab equipment and IOS version 12.4 specification
- \* Same physical topology used throughout the entire workbook so no need to re-cable your equipment
- \* Hardware specification easily replicated in your home lab, Dynamips, and widely supported by commercial rack vendors
- \* Free online support forum actively monitored by the actual authors of the workbook
- \* Developed by the authors you know and trust to provide only the best material
- Solutions**
- \* The solution guide was developed by the authors you know and trust to provide only the best and accurate material available
- \* The solutions are broken down on a task-by-task basis so no need to guess which commands relate to which question
- \* Unlike some vendors we do not charge for our detailed solutions guide
- \* Over 1300+ pages of the most comprehensive and detailed solutions available on the market today
- \* The solution guide explains key points and pitfalls of each technology covered in the CCIE lab exam
- \* Each printed version of the workbook ships with a printed version of our 1300+ page solutions guide
- \* Our solutions are hands down the most comprehensive available with any workbook

**Summary** Internetwork Expert's IEWB-RS workbook has been used by thousands of networking engineers to help prepare for the Routing and Switching CCIE Lab exam. Although the success of our workbook speaks for itself we would like to highlight a few key points you should consider when selecting a workbook:

- \* Which vendor's workbook is used by more candidates to pass the CCIE Lab exam?
- \* Which vendor includes their full printed solutions (solutions guide, proctor guide, verifications, etc) free of charge?
- \* Which vendor includes laminated diagrams for each lab free of charge?
- \* Which vendor's workbook is written from the ground up by the authors you know and trust?
- \* Which vendor's workbook includes a free upgrade policy?
