

Internetwork Expert - CCIE Routing & Switching - IP Routing Audio Class

Internetwork Expert's CCIE Routing & Switching Open Lecture Series is an ongoing online course - keeping in line with our revolutionary CCIE RS 4.0 Program model - which provides candidates continuing live interaction with the industry's most experienced CCIE authors and instructors. The dynamic format of this series ensures that candidates always have an outlet for getting their questions answered in real-time throughout the lifetime of their preparation.
