

Cisco Live CCNA Wireless(640-721) Prep Session

This session will help attendees prepare for the "Implementing Cisco Unified Wireless Networking Essentials" (IUWNE) (640-721) exam for the CCNA Wireless certification. The first part of the session is an overview of IUWNE course content. This session is built to present both technical content and practical demonstrations on remote equipment. Questions and answers will help the audience get a better understanding of the presented topics. The 640-721 Implementing Cisco Unified Wireless Network Essential (IUWNE) exam is the exam associated with the CCNA Wireless certification. This exam tests a candidate's knowledge of installing, configuring, operating, and troubleshooting small to medium-size WLANs. Candidates can prepare for this exam by taking the Implementing Cisco Unified Wireless Network Essential (IUWNE) course.
