

IPexpert Lab Preparation Workbook for the CCIE R&S Lab Exam

IPexpert offers three separate workbooks designed to assist clients with CCIE Routing & Switching (R&S) 4.0 lab preparation. All workbooks come with a companion (second) workbook entitled the **Detailed Solution Guide**. The Detailed Solution Guide is a **thorough breakdown** of all tasks and solutions. Detailed explanations and tips guide clients through these challenging lab scenarios. IPexpert also provides an additional component labeled "**Walk-Through Video Tutorials**" which is a collection of high definition video based solutions for each workbook. IPexpert's industry renowned CCIE Instructors walk through the entire lab scenario providing helpful insight, technical tips and tricks. This is essentially a "virtual Instructor" at your fingertips. **Volume 1** is designed to allow candidates to focus on individual protocols and technologies on the current CCIE R&S 4.0 Lab blueprint. CCIE Routing & Switching Lab Preparation Workbook Volume 1 consists of 34 sections / lab scenarios that each take 2 to 8 hours to complete.

- ACLS, Security and Redundancy
- Advanced Router Managment, Multicast, Quality of Service and QoS MQC conversions
- BGP and Redistribution
- GRE and Routing Protocols, IPv6 and IPv6 Advanced Routing. Final Part

Workbook I - Intro, General Lab Setup, Switching

- Layer 2 Tunneling, Frame-Relay, Bridging and Frame-Relay
- RIP, EIGRP and OSPF
