

CCIE R&S Lab Bootcamp Workbook - Khawar Butt

The objective of this boot camp is for students to prepare completely so that they can take (and PASS!) their CCIE lab exam. While ultimate success is up to each individual, our world renowned CCIE instructors will ensure that every participant has all the tools - lab scenarios, assistance, guidance and lectures - you will need to pass your CCIE lab exam! This course will also expose you to network situations you're likely to experience on the exam. Particularly designed to prepare CCIE candidates for the R/S lab exam. Our highly experienced and certified instructors will identify your weak areas and will help you to strengthen the knowledge and confidence to pass the lab exam at the first attempt.
