

CCIE Security (3.0) Blended Learning Solution (BLS) Self-Study Bundle

Throughout nearly a decade of leading the CCIE training industry, IPexpert has coined the term "Structured Learning Approach" to describe its methodology for maximizing student success. We have developed our learning materials around our proven techniques and over a thousand successful students who have enthusiastically recommended these study techniques to others. Some companies may claim to be experts in this space, but the fact that IPexpert has amassed the world's largest list of successful CCIEs speaks clearly for our record. Let us help you to join this elite group! Our End-to-End Self-Study Training Solution for CCIE Security 3.0 candidates contains an unmatched quantity of recently-updated and newly-created material designed with our renowned "Learn By Doing" approach as well as an unmatched QUALITY of technical material that fits into IPexpert's "Structured Learning Approach" methodology. This proven program has trained MORE CCIEs than any company in the world, has traveled the world and reached nearly every developed country and has continuously been refined and updated by the world's most elite group of technical Instructors. This thorough hands-on solution is designed to take you from your initial stages of CCIE lab preparation all the way to your actual lab exam! Created specifically as a self-study learning program, this Blended Learning Solution is sure to exceed your expectations. This program provides you with a consolidated learning experience delivered through various forms of media. Each component is built into a streamlined, user-friendly learning environment that maximizes your study time and focus and simplifies your efforts! In addition to thousands of pages of printed study manuals, you will also receive a portable, durable hard drive (Windows and Mac compatible). This hard drive is configured with a custom, user-friendly menu and navigation system. Between your printed manuals and your hard drive, your CCIE number is nearly guaranteed!
