IPexpert’s Ultimate Preparation Workbook for the CCIE Security Lab Exam – Version 4.1

With over 18 LAB SCENARIOS, (13 Protocol / Technology Focused and 5 1-Day Mock Labs), re-written to match the current CCIE Security lab blueprint and objectives (as of Jan 1, 2007), you are GUARANTEED to have enough content in this single workbook to prepare for the CCIE Lab exam. There is no need to purchase a 2nd or 3rd workbook - like our competition may suggest. # Current content built around the latest hardware and IOS - and lots of it!   We didn't just add a few new tasks to our old workbook and call it "new" like our competition, we have revised the entire product and made sure that it is as up-to-date as possible! # Built around a standard topology that can be rented online, 12.3 / 12.4 is the standard IOS on our partner's racks (Proctor Labs, Inc.). Proctor Labs has invested in all new vRack hardware to consist of the latest and greatest CCIE security HW available today!
