INE - CCIE Security Advanced Technologies Course 5 Day $499

The CCIE Security Advanced Technologies Course uses a hands-on demonstration approach designed to provide you with a CCIE-level understanding of the technologies covered by the current blueprint of Cisco Systems' CCIE Security Lab Exam. It contains more than 26 hours of highly advanced instruction on cutting edge CCIE-level technologies. This course goes deep into the advanced implementation of the latest in Cisco Security technologies such as PIX, ASA, IOS firewalls, IOS-based security, attack mitigation, VPN's, identity management, and intrusion detection and prevention.   **Advanced Technologies Outline:** # Module 1 * Lesson 1 - ASA Overview * Lesson 2 - ASA Routing * Lesson 3 - ADA - ACLs/Failover * Lesson 4 - Failover * Lesson 5 - Contexts * Lesson 6 - Transparent Firewall # Module 2 * Lesson 1 - ACLs, lock and key ACLs * Lesson 2 - TCP Intercept / IOS Firewall Configuration * Lesson 3 - IOS Firewall tuning * Lesson 4 - Zone Based Firewall * Lesson 5 - VPN Introduction * Lesson 6 - VPN Configuration / Troubleshooting * Lesson 7 - VPN - IOS Certificate Authority # Module 3 * Lesson 1 - VPN - Certificate Map Config / Debug * Lesson 2 - ASA VPN Configuration * Lesson 2.5 - SSL VPN Configuration * Lesson 3 - Dynamic Multipoint VPN Intro/ Config * Lesson 4 - DMVPN Routing Configuration * Lesson 5 - VPN Features - ISAKMP Key Encryption * Lesson 6 - Group Encrypted Transport - Part 1 * Lesson 7 - Group Encrypted Transport - Part 2 * Lesson 8 - AAA Introduction * Lesson 9 - ACS GUI Interface Overview * Lesson 10 - AAA Command Authorization / Accounting Config # Module 4 * Lesson 1 - ASA cut-through TACACS+ * Lesson 2 - Cut-through Radius - Local vs DL Part 1 * Lesson 3 - Cut-through Radius - Local vs DL Part 2 * Lesson 4 - Cut-through Radius - Local vs DL Part 3 * Lesson 5 - Dot1x Configuration - Router as client * Lesson 6 - Online Documentation navigation / review * Lesson 7 - IDS / IPS intro * Lesson 8 - IPS part 2 - configuration * Lesson 9 - IPS - blocking configuration * Lesson 10 - IPS inline mode * Lesson 11 - ASA shunning / ASA IPS # Module 5 * Lesson 1 - Role Based CLI * Lesson 2 - Management - SNMP * Lesson 3 - Management - Logging * Lesson 4 - ASA Policy Tuning - MPF - BGP Example * Lesson 5 - Flexible Packet Matching * Lesson 6 - Switch Features * Lesson 7 - Attack Mitigation - Part 1 * Lesson 8 - Attack Mitigation - Part 2 Download | **Size:** 26.88GB **[This hidden password content is only available for our VIP member.
