The Cisco 642-902 exam is one of the three required exams for the Cisco CCNP Certification. Passing this exam in conjunction with the SWITCH and TSHOOT exams will earn you the CCNP (Cisco Certified Network Professional) certification, which is an excellent validation that you are knowledgeable about the most current Cisco software and best practices. This course covers the requirements and should prepare you to pass the ROUTE exam. To begin learning today, simply click on the movie links.
