

## [New Exam Dumps Free 90q 1Z0-028 Exam Questions From PassLeader For Free Download

Get New Valid 1Z0-028 Exam Dumps To Pass Exam Easily: The following new 1Z0-028 exam questions were updated in recent days by PassLeader, visit [passleader.com](https://passleader.com) to get the full version of new 90q 1Z0-028 exam dumps with free version of new VCE Player software, our valid 1Z0-028 braindumps will help you passing 1Z0-028 exam easily! PDF practice test and VCE are all available now! keywords: 1Z0-028 exam, 90q 1Z0-028 exam dumps, 90q 1Z0-028 exam questions, 1Z0-028 pdf dumps, 1Z0-028 vce dumps, 1Z0-028 braindumps, 1Z0-028 practice test, 1Z0-028 study guide, Oracle Database Cloud Administration

QUESTION 1 How does the National Institute of Standards and Technology define a Community Cloud?  
A. A common environment for use by a group of related organizations B. A combination of private and public Clouds for multiple organizations C. Separate environments for use by multiple organizations D. Separate environments for use by a single organization Answer: A  
Explanation: The cloud infrastructure is provisioned for exclusive use by a specific community of consumers from organizations that have shared concerns (e.g., mission, security requirements, policy, and compliance considerations). It may be owned, managed, and operated by one or more of the organizations in the community, a third party, or some combination of them, and it may exist on or off premises. <http://csrc.nist.gov/publications/nistpubs/800-145/SP800-145.pdf> QUESTION 2 Which two Cloud service types as defined by the National Institute of Standards and Technology (NIST) may be used for self-service provisioning of an Oracle WebLogic Environment? A. Platform as a Service B. Infrastructure as a Service C. Software as a Service D. Middleware as a Service E. Application Server as a Service Answer: AB Explanation: <http://www.oracle.com/us/industries/public-sector/cloud-solutions-public-sector-wp-323002.pdf> (page 10) QUESTION 3 Which four are true concerning the mapping of source servers to destination servers when using custom consolidation scenarios with Enterprise Manager 12c Cloud Control Consolidation Planner? A. Source servers may only be mapped to existing servers. B. Source servers may be mapped in balanced manner to all destination servers. C. Source servers may be randomly mapped to a subset of destination servers. D. Source servers may be mapped to the fewest destination servers. E. Source servers may be explicitly mapped to destination servers. F. Source servers may be auto-mapped to destination servers. G. Source servers may not be mapped to phantom servers. Answer: ABEF Explanation: [https://docs.oracle.com/html/E28814\\_01/consolid\\_plan.htm](https://docs.oracle.com/html/E28814_01/consolid_plan.htm) QUESTION 4 Which three are true about the collection of chargeback metrics and the generation of chargeback reports by Enterprise Manager Cloud Control 12c? A. The sysman user must run a job to collect the metrics. B. A user with the EM\_CLOUD\_ADMINISTRATOR role must run a job to collect the metrics. C. A user with the EM\_SSA\_ADMINISTRATOR role must run a job to collect the metrics. D. Metrics are collected automatically. E. Chargeback reports may be requested manually by the sysman user. F. Chargeback reports run on a daily basis automatically. Answer: ACE QUESTION 5 How does Enterprise Manager Cloud Control 12c discover resources that are deployed by end users using self-service deployment? A. The Enterprise Manager Agent discovers the newly deployed targets when a Cloud Control Administrator manually requests discovery. B. Resources that are created by end-user deployment requests automatically become managed targets in Enterprise Manager Cloud Control when the resources are deployed. C. The Enterprise Manager Agent discovers the newly deployed targets when a self-service user requests target discovery. D. Resources that are created by end-user deployment requests become managed targets automatically only when the agent is restarted. Answer: B QUESTION 6 Which three statements are true about the Oracle Homes in Platform as a Service (PaaS) pools? A. They come from a single PaaS infrastructure zone. B. They are all database or all middleware homes. C. They are on the same platform.

D. They only have to be of the same major release. E. They can be included in other pools. F. They can be patched to a later version. Answer: ABC QUESTION 7 Which three are valid cost calculations for a Universal Charge Plan for Enterprise Manager 12c Cloud Control self-service targets?

A. Memory allocation of \$4 per gigabyte per week B. Storage allocation of \$5 per gigabyte per month C. Database instances at \$10 per month per instance D. CPU usage for a default CPU architecture at \$3 per hour E. Database instances for version 11.2.0.3 at \$10 per month per instance Answer: BCE QUESTION 8 Which three are defined as part of the request settings for Database as a Service (DBaaS) when setting up the self-service portal? A. The time in advance that self-service portal users may request a database when using DBaaS self-service provisioning B. The time for which data about past self-service portal requests are retained for display C. The time for which self-service-provisioned databases may be opened before their instance or instances are automatically shut down D. The backup strategy for self-service-provisioned databases E. The time for which a database requested by using the self-service portal may remain active F. The maximum CPU time available for self-service-provisioned databases Answer: DEF Explanation: [http://docs.oracle.com/cd/E24628\\_01/doc.121/e28814/cloud\\_db\\_using.htm#EMCLO70](http://docs.oracle.com/cd/E24628_01/doc.121/e28814/cloud_db_using.htm#EMCLO70)

QUESTION 9 How can Enterprise Manager 12c Cloud Control self-service chargeback metering data be accessed by external billing systems?

A. By using an RSS feed from the Chargeback home page B. By defining the external billing system as an Enterprise Manager target that may connect to the Chargeback application C. By running emcli get\_metering\_data and importing the output into the billing system as required D. By defining the external billing system as an Enterprise Manager target that then uses a 81 Publisher report to obtain the billing data Answer: B QUESTION 10 What are three Infrastructure as a Service (IaaS) request settings that can be overridden by a quota?

A. Future reservation B. Request duration C. EM agent configuration D. Software library folder E. Partial deployment F. Archiving to Software Library Answer: ABC Explanation:

[http://docs.oracle.com/cd/E24628\\_01/doc.121/e28814/cloud\\_iaas\\_portal.htm#EMCLO222](http://docs.oracle.com/cd/E24628_01/doc.121/e28814/cloud_iaas_portal.htm#EMCLO222) (see the bullet after the note)
