

## Free Video ? Cisco Press:CCNP Video Mentor (Video Learning)

CCNP Video Mentor is a DVD-ROM software product. The enclosed DVD contains a series of succinct instructional videos that demonstrate how to accomplish various CCNP-level configuration tasks on Cisco routers and switches. The 16 videos contained in this product total over 5 hours of instruction. In each individual 10-15 minute video, senior instructor Kevin Wallace walks you through basic configuration tasks. The videos consist of audio instruction, animations, and router and switch CLI video screen-casts. Each video lab presents suggested reading lists, detailed objectives, lab diagrams, command tables, and video captures. Audio instruction throughout offers tips and shortcuts that truly make learning easy. Animated network diagrams show you lab setup, device addressing, and how traffic flows through the network. Video screen-casts of the router and switch CLI demonstrate command entry, configuration techniques, and device response. For several years now, Cisco has included simulation-based assessment into its CCNP exams. These simulation questions require you to perform basic configuration tasks, adding another level of complexity to the certification process. CCNP Video Mentor helps you be better prepared for this aspect of the exam.
