CCNP Books

 CCNP® (Cisco Certified Network Professional) certification indicates advanced knowledge of networks. It is the second stage of the Network Installation and Support track, and it teaches the installation, configuration, and operation of LAN, WAN, and dial access services for medium-to-large networks with multiple protocols. The content emphasizes topics such as security, converged networks, quality of service (QoS), virtual private networks (VPN) and broadband technologies. Learn more about CCNP certification from Cisco Systems®.

Prerequisites

CCNA® certification is a prerequisite for CCNP certification.
